

NAEP Trial Urban District Assessment

The Trial Urban District Assessment (TUDA) program measures performance on the National Assessment of Educational Progress (NAEP) in 27 urban school districts. The TUDA data allow for comparisons with other participating districts as well as with states and with the nation. Funded by Congress in 2002, the TUDA program has collected and reported student achievement data for select large urban districts every other year since 2003. When the program started, only six districts participated. As of 2017, the number of urban districts voluntarily participating has grown to 27. With the goal of improving student achievement, the TUDA program focuses attention on the specific challenges and accomplishments associated with urban education.

Because of their unique size and demographics, TUDA districts can learn best practices from similar districts to understand what works in improving education. NAEP provides high-quality and reliable results over the long term, helping participating urban school districts know if their initiatives are moving student achievement forward in reading and math.

PARTICIPATING SCHOOL DISTRICTS

- Albuquerque Public Schools (New Mexico)
- Atlanta Public Schools
- Austin Independent School District (Texas)
- Baltimore City Public Schools
- Boston Public Schools
- Charlotte-Mecklenburg Schools (North Carolina)
- Chicago Public Schools
- Clark County School District (Nevada)
- Cleveland Metropolitan School District
- Dallas Independent School District
- Denver Public Schools
- Detroit Public Schools
- District Of Columbia Public Schools
- Duval County Public Schools (Jacksonville, Florida)
- Fort Worth Independent School District (Texas)
- Fresno Unified School District (California)
- Guilford County Schools (Greensboro, North Carolina)
- Hillsborough County Public Schools (Florida)
- Houston Independent School District
- Jefferson County Public Schools (Kentucky)
- Los Angeles Unified School District
- Miami-Dade County Public Schools
- Milwaukee Public Schools
- New York City Public Schools
- School District Of Philadelphia
- San Diego Unified School District
- Shelby County Schools (Memphis, Tennessee)

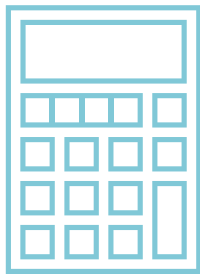

Eligibility Criteria

Urban school districts eligible to participate in TUDA must meet the following criteria:

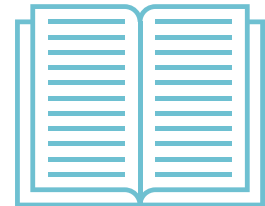

- Be located in cities with at least 250,000 residents
- Enroll at least 1,500 students per subject and per grade level that NAEP assesses
- Either districtwide or in the grade levels assessed, include
 - 50 percent or more minority students, or
 - 50 percent or more students eligible for the free and reduced-price lunch program

How Performance is Reported

The Governing Board reports performance using average scores and percentages of students performing at or above three achievement levels: *Basic*, *Proficient*, and *Advanced*. The *Basic* level signifies partial mastery of the knowledge and skills that are fundamental for proficient work in a grade and subject. *Proficient* denotes solid academic performance demonstrating competency over challenging subject matter, including subject-matter knowledge, application of such knowledge to real-world situations, and

analytical skills. *Advanced* represents superior performance beyond proficiency. *Proficient* is not the same as being “on grade level,” which refers to student performance based on local standards and curriculum that can vary among school districts. It is only by holding our nation’s students to high academic standards that we can expect them to develop the knowledge and skills they need to compete in today’s global economy.
