National Assessment Governing Board
Strategic Vision – Implementation Activities Report
November 2017

On November 18, 2016, the National Assessment Governing Board unanimously adopted its Strategic Vision to focus the Board's work from 2017-2020. This approval marked the beginning of the implementation phase, which is managed by the staff, overseen by the Board, and conducted in partnership with the National Center for Education Statistics (NCES). For each of the four years during the Strategic Vision's implementation, the staff will provide annual progress reports to the Governing Board at the August Board meetings. This first annual progress report presented in August 2017 was backward-looking, capturing notable work of the past year to implement the Board's vision.

Beginning with the November 2017 Board meeting, staff are providing the following implementation activities report to identify the things either underway or currently planned to achieve the ten priorities in the Strategic Vision. This report is a living document and will be updated and enhanced based on Board feedback and project decisions; a version of this report will be included in the materials for each quarterly Board meeting for the duration of the Strategic Vision's implementation. It is included in each standing committee's materials to provide a snapshot of the entire work plan, to supplement the more detailed committee-specific progress reports created by staff.
