

May 7, 2018

Dear Board Member,

We are pleased to provide the agenda and briefing materials for the May 17-19, 2018 meeting of the National Assessment Governing Board. The meeting will be held in Montgomery, Alabama thanks to the tremendous effort of our Board member and host, Chasidy White. The meeting and accommodations will be at the Embassy Suites Montgomery Hotel and Conference Center located at 300 Tallapoosa Street. There are many historical and cultural sites to explore in Montgomery, which we hope you will take advantage of during this meeting.

Meeting in Montgomery, Alabama provides us with some valuable opportunities to expand beyond our regular meeting structure. On Thursday morning, we are excited to visit Pike County Schools in nearby Troy, Alabama. We'll leave the hotel at 7:30 a.m. Upon our return in early afternoon, the Ad Hoc Committee on Measures of Postsecondary Preparedness will convene followed by a brief meeting of the Executive Committee.

On Friday morning, the Board will have the pleasure of hearing remarks from John Merrill, Secretary of State and Todd Strange, Mayor of the City of Montgomery. We will then hear a panel of experts discussing Alabama's nationally-recognized early childhood education efforts.

After the standing Committees meet, Friday's working lunch session will focus on how state mathematics curricula relate to NAEP mathematics. Friday afternoon will provide Board members the opportunity to meet first in small groups and then as a full Board to discuss initial ideas for how to implement the assessment schedule priorities. Friday's events will conclude with a stakeholder outreach event in the evening, providing the Governing Board the opportunity to connect with state and local policy-makers, educators, and industry representatives.

Early Saturday morning, the Nominations Committee will convene in closed session. The full Board will discuss reflections on the outreach dinner and potential considerations for the Ad Hoc Committee. Then the Board will receive the Committee Reports. Finally, the Board will meet in a closed session to hear about the soon to be released state mapping report and information about the Stanford Educational Data Archive (SEDA) that was featured in the New York Times. The May 2018 Board meeting will adjourn at 10:45 am, a little earlier than usual to accommodate travel schedules and the Executive Director screening committee's meeting.

I look forward to seeing you soon and wish you safe travels. If you need further assistance in your preparations for the Board meeting, please let us know how we can help.

Sincerely,

A handwritten signature in black ink that reads "Bill".

William J. Bushaw
Executive Director

The National Assessment Governing Board's Strategic Vision (SV) below-listed goals are annotated with "SV" and a number, which will be included on relevant agenda items for Board and Committee meetings during implementation.

Inform

The National Assessment Governing Board will promote The Nation's Report Card's wealth of information to facilitate the awareness and uses of NAEP in appropriate, timely, new, and meaningful ways. Examples of NAEP resources include: results; trends; test questions and tasks; studies; measurement innovations; frameworks that specify the content and design of NAEP assessments; and contextual variables about student demographics and educational experiences collected from students, teachers, and schools. The Governing Board will:

- Strengthen and expand partnerships by broadening stakeholders' awareness of NAEP and facilitating their use of NAEP resources. (SV #1)
- Increase opportunities to connect NAEP to administrative data and state, national, and international student assessments. (SV #2)
- Expand the availability, utility, and use of NAEP resources, in part by creating new resources to inform education policy and practice. (SV #3)
- Promote sustained dissemination and use of NAEP information beyond Report Card releases with consideration for multiple audiences and ever-changing multi-media technologies. (SV #4)

Innovate

The National Assessment Governing Board will revise the design, form, and content of The Nation's Report Card using advances in technology to keep NAEP at the forefront of measuring and reporting student achievement. The Governing Board will:

- Develop new approaches to update NAEP subject area frameworks to support the Board's responsibility to measure evolving expectations for students, while maintaining rigorous methods that support reporting student achievement trends. (SV #5)
- Continue improving the content, analysis, and reporting of NAEP contextual variables by considering the questions' relevance, sensitivity, and potential to provide meaningful context and insights for policy and practice. (SV #6)
- Research policy and technical implications related to the future of NAEP Long-Term Trend assessments in reading and mathematics. (SV #7)
- Research assessments used in other countries to identify new possibilities to innovate the content, design, and reporting of NAEP. (SV #8)
- Develop policy approaches to revise the NAEP assessment subjects and schedule based on the nation's evolving needs, the Board's priorities, and NAEP funding. (SV #9)
- Develop new approaches to measure the complex skills required for transition to postsecondary education and career. (SV #10)

This Strategic Vision will focus the work of the Governing Board through the year 2020. By pursuing these priorities, the Governing Board will ensure that The Nation's Report Card provides the country with valuable data that measure and contribute to the improvement of student progress in achieving important knowledge and skills necessary for success as citizens in our democratic society. The Strategic Vision was unanimously approved November 18, 2016
