## **Debrief of NAEP Day #2**

On October 30, the Governing Board hosted the initial release of the 2019 results from the National Assessment of Educational Progress in Reading and Mathematics, grades 4 and 8. The release event occurred between 1:30 pm and 3:30 pm at the National Press Club in Washington, DC. The release was live-streamed for an online audience.

The agenda for the event included opening remarks from Tonya Matthews, Vice Chair of the National Assessment Governing Board, and Lynn Woodworth, the Commissioner of the National Center for Education Statistics. Peggy Carr, Associate Commissioner for the Assessment Division at the National Center for Education Statistics, first presented the national and state-level NAEP results in reading and mathematics. She fielded questions from the audience, then turned to presenting results for the 27 large urban districts, which volunteer to participate in the Trial Urban District Assessment (TUDA). Michael Casserly, the Executive Director for the Council of the Great City Schools, provided remarks about the TUDA results. Secretary Betsy DeVos also offered remarks.

The event then shifted from presentation to panel discussion. The theme for the release focused on equity—over the last decade, higher-achieving students have improved, whereas lower-achieving students have stayed steady or declined. The invited panelists addressed how the education system can improve outcomes for all students, from their diverse perspectives as a classroom teacher, a principal, a state chief, and a state legislator. Caroline Hendrie, the Executive Director of the Education Writers' Association, moderated the lively panel discussion.

The Reporting and Dissemination Committee will learn about the impact of the release event and the report card.

### **Reflecting on the Past; Considering the Future**

As the first Strategic Vision of the National Assessment Governing Board draws to a close, this committee meeting affords an opportunity to reflect on what the Reporting and Dissemination Committee accomplished, what remains incomplete, and what should be prioritized over the next nine months. This also marks the first chance to consider what activities and efforts to undertake as part of the next Strategic Vision.

The subsequent pages present the committee's accomplishments from the inception of the Strategic Vision until now. In reviewing these, consider (1) what worked most effectively; (2) what led the committee and the Board closest to its mission and goals; and (3) what should continue under the next Strategic Vision.

The committee fulfilled many of its plans from the first Strategic Vision but left others unfulfilled, a natural and inevitable consequence of an ambitious task list and finite time and resources. To propel—but not to limit—the committee's conversation, the following list presents activities planned, but not implemented. Do any of these merit revisiting in the next Strategic Vision?

- Develop strategic approach to identify what NAEP resources partners need to expand the use of NAEP
  - At least once annually, host stakeholder panel sessions during Board meetings to help identify ways to expand, deepen, and support partnerships.
- Coordinate with partner organizations and agencies to host and support events about NAEP data
  - Fulfilled, but perhaps not with the intended robustness?
- Develop innovative, user-friendly data tools and means to present NAEP results to public
  - Templates that support quick creation of infographics, especially ones based on contextual data
  - Teacher preparation toolkit to introduce preservice educators to NAEP
- Research when and how NAEP results are currently used to support appropriate use of NAEP results
  - Produced report on how national-only assessments used, but not how other subjects are analyzed and used
- Identify opportunities to promote the use of NAEP data with other federal data sets

Beyond deliberating on these known plans and accomplishments, the Committee should think broadly, deeply, and boldly. This is the moment for innovative strategizing and plans that depart from the mundane. What's next?
