

PUBLIC HEALTH PANELIST BIOGRAPHIES

Annette Campbell Anderson, Johns Hopkins University School of Education;
Co-Founder, eSchools+ Initiative

Annette Anderson provides leadership and advisory services for the School Administration & Supervision programs at the Johns Hopkins School of Education. Along with colleagues, she co-founded the eSchool+ Initiative an interdisciplinary partnership that includes broad representation from the Johns Hopkins Schools of Education, Public Health and Medicine, and the Berman Institute of Bioethics. eSchool+ partners bring expertise in ethics, equity and structural injustice, education, school-based health care, food security, and public health policy. to develop guidance for schools and policy stakeholders to think responsibly and equitably about students during school closures and reopening.

A native of Baltimore and a graduate of Baltimore City Public Schools, Annette's experiences have left an indelible mark on her career interests in educational equity and adequacy. Besides her research pursuits, she has served in a variety of school-based positions, including classroom teacher, teacher leader, curriculum coordinator, and assistant principal. She served as the chief executive officer and founding principal of Widener Partnership Charter School, the first university-assisted charter school in Pennsylvania. The school quickly became known to state and local education officials as a successful model for university-public school partnerships.

Nathaniel Beers, MD, MPA, FAAP, President, HSC Health Care System

Nathaniel Beers, MD, MPA, FAAP, is currently President of HSC Health Care System in Washington, DC, and a general and developmental-behavioral pediatrician at Children's National Health System. Dr. Beers is a recognized expert in the area of children with complex needs and has held a variety of clinical, executive and cross-sector leadership roles including service with District of Columbia Public Schools and the DC Department of Health. He is a co-author of *COVID-19 Planning Considerations: Guidance for School Re-Entry*, published by the American Academy of Pediatrics in June 2020.
